Notes

* Make Day Before Serving.

Drain pineapple reserving juice. Drain mandarin oranges.

Bring 2 quarts of unsalted water to a rapid boil; add acini di pepe and stir. Return to a boil. Cook uncovered, stirring occasionally for 12-13 minutes. Drain well in fine strainer.

While acini de pepe is cooking combine flour with the egg using a wire whisk. Add a small amount of the measured pineapple juice called for in the recipe. Whisk to make a smooth paste. Slowly stir in more of the pineapple juice until all of it has been added. Add salt. Bring the mixture to a boil over low heat stirring constantly. Boil 1 minute and remove from the heat.

Stir pineapple juice, flour, egg sauce made above into the drained acini di pepe. Add drained fruit and lightly mix. Refrigerate overnight.

Day of Service: Fold cool whip into chilled acini di pepe mixture and return to refrigerator or serve.

Potentially Hazardous Food: Food Safety Standards: Hold food for service at an internal temperature below 41 degrees F.
